

IF YOU'RE INTERESTED IN HONING
AND TONING YOUR CONTOURS
QUICKLY, FDA-CLEARED ALLURA™
IS A PROMISING TREATMENT
OPTION FOR YOU!

ALLURA™ Laser Body Sculpting typically
provides immediately visible results
and unique benefits not available
with non-invasive devices or traditional
liposuction methods.

ALLURA IS IDEAL FOR PATIENTS SEEKING:

- Rapid fat reduction & skin contraction¹
- Minimal downtime
- A convenient, in-office procedure
- A single-session treatment

ALLURA's *precise*, minimally-invasive laser technology
can redefine even the most delicate or challenging
areas. It is best suited for small to medium-sized
areas of fat and mild to moderate skin laxity.

COMMON TREATMENT AREAS FOR ALLURA
LASER BODY SCULPTING INCLUDE:

- | | |
|---------------|----------------------|
| • Neck / Chin | • Arms |
| • Bra Roll | • Thighs |
| • Abdomen | • Knees |
| • Flanks | • Male Breasts |
| • Mons Pubis | • Fat around Muscles |

1: Through soft tissue coagulation. ALLURA is FDA-cleared for laser assisted lipolysis.
